Oocyte Cryopreservation Price List (2016)

We here at Specialists in Reproductive Medicine & Surgery, P.A., (SRMS) want to offer you a “Dreamy” option that will make it easier for you to achieve your goals of building your family. We call it our “Dream Discount Plus Program” offering **20%/30%/40%/50%** off of our 2014 prices for nearly all of your Assisted Reproductive Technology (ART) procedures! Below is a breakdown of the estimated self-pay costs of our Oocyte Cryopreservation procedure under our new “Dream Discount Plus Program:”

ART Procedures	Dream Discount Plus Program		
	<i>30% Off</i> Cycle 1	<i>40% Off</i> Cycle 2	<i>50% Off</i> Cycle 3
Oocyte (Egg) Freezing (2014 fees: \$5820)	\$ 4,450	\$ 3,600	\$ 3,325

The fees subject to the Dream Discount Plus Program are highlighted **Red** in this Price List.

General:

The following are the charges incurred during an Oocyte Cryopreservation (OC) procedure. We have done our very best to estimate the charges accurately, although patient variance will often occur.

If we participate with your insurance company, we will verify benefits prior to OC. If OC is a covered service, we will bill your insurance company and collect any co-payments due at the time of service. If OC is not a covered service or we do not participate with your insurance plan, no charges will be billed to your insurance company and all fees will be as listed below:

Total: \$10,063 \$11,438

It is uncertain how long you are going to cryopreserve your oocytes. When you are ready to use them, the following may need to be updated:

- History & Physical Exam
- Vaginal Ultrasound and/or hysteroscopy
- Pap Smear
- ART screening lab work

Since it not possible to know what will need to be done, these prices will not be estimated at this time although payment for these are generally requested at the time the service is rendered.

Blood Tests Needed by RTL for Release of Oocytes:

The following is the fee required (paid to storage facility) to bring your cryopreserved oocytes back to the facility:

Return Transportation & Administrative Handling Fee

Probable

Possible

Federal Express Return to SRMS from RTL \$215.00

Subtotal: \$215.00

Case Management Fee:

\$178.00

[The **Case Management Fee** (\$178) will be due at the time of cycle registration.]

Total:	\$10,063	\$11,438
Total OC Fees for Freezing, Thawing and Fertilizing:	Probable	Possible
Total:	\$22,673	\$24,048

Replacement Cycle Transfer Fees:

If a natural cycle FET is not possible (patient does not ovulate regularly on her own), a replacement cycle will be performed. In a replacement cycle, estrogen and progesterone are administered by injection to replace the function of the ovary.

While replacement cycles afford a bit more predictable control in the timing of the transfer process, more injections are given and the overall costs greater. For these reasons, natural cycle cycles are preferred whenever possible.

While somewhat beyond the scope of this price list, the overall costs of medications and monitoring fees are about \$3015 compared to \$1133 incurred when the patient is able to ovulate.

Changes In Fees:

The incurred costs estimated here are not guaranteed. Individual variability often results in an unpredictable number of ultrasounds, blood tests and medication vials administered. **All fees listed here are subject to change without notice.**

For your convenience, Visa Discover and MasterCard are accepted.

Any funds that were collected for procedures that **were not performed** (i.e., the cycle was canceled) will be refunded upon request within seven days of the conclusion of your cycle.

Any funds **not pre-collected** for procedures performed **that exceeded our original estimates**, or for **possible or post transfer fees** , will be billed at the time of service with all monies owing to be paid within thirty days of embryo transfer.

I have read the information above and our questions answered to our satisfaction. We agree to be responsible for the payment of charges as stated:
